Divith KR

Bengaluru — MERN Stack Developer — Web Application Developer
divith2526@gmail.com | 9353473258 | LinkedIn | GitHub

PROFILE

MERN Stack Developer with hands-on experience in building scalable and responsive web applications. Proficient in JavaScript, TypeScript, MongoDB, Express.js, React.js, Node.js, and PostgreSQL. Skilled in developing both frontend and backend systems, implementing RESTful APIs, and designing user interfaces using Tailwind CSS and Bootstrap. Focused on writing clean, maintainable code and delivering efficient solutions. Actively seeking opportunities to contribute to real-world projects and grow as a full-stack developer.

EXPERIENCE

Bootcamp
Brototype   *Bengaluru*
Engaged in a self-paced full-stack development program with weekly expert reviews, building static and dynamic websites—including an e-commerce platform—using HTML, CSS, JavaScript, React, Tailwind CSS, EJS, Node.js, express.js, postgre SQL and MongoDB, focusing on clean UI/UX and backend integration.

PROJECTS

Portfolio Website   **Git**
Personal Web Portfolio — React, HTML, CSS, JavaScript
- Developed a responsive portfolio website using React to professionally showcase my skills, projects, and experience.
- Designed a modular component-based structure for maintainability and scalability.
- Implemented interactive and smooth navigation to enhance user engagement.
- Focused on a clean UI/UX to ensure a visually appealing and device-friendly presentation.

Study Bangalore International   **Git**
Admission Booking Website — HTML, CSS, JavaScript
- Developed a real-world static website to display admission details for various colleges in Karnataka.
- Designed a responsive and visually appealing UI using HTML and CSS.
- Implemented JavaScript-based form validations to ensure accurate user input.
- Optimized the website for better performance and user experience.

RevGear   **Git**
E-Commerce Platform for Riding Gear — MongoDB, Express.js, React.js, Node.js, Tailwind CSS
- Developed a full-fledged e-commerce platform for selling premium riding gear and accessories.
- Built the backend using Node.js, Express.js, and MongoDB, ensuring efficient data management.
- Designed the frontend with React.js and Tailwind CSS for a responsive and modern UI.
- Implemented secure payment processing and authentication for enhanced user safety.
- Started the development process with Figma for UI/UX design and structured the database before implementation.

Weather App   **Git**
Weather Application — React, HTML, CSS, JavaScript, OpenWeather API
- Built a live weather application using React that fetches real-time weather data from the OpenWeather API.
- Implemented dynamic UI updates based on weather conditions, with responsive design for all devices.
- Used React hooks for managing state and side effects to ensure smooth and interactive user experience.
- Enhanced visuals with condition-based icons and background themes to improve user engagement.

Touch-evento   **Git**
Event Invitation Platform — React, HTML, CSS, JavaScript
- Created a digital invitation web app using React to allow users to RSVP and view event details interactively.
- Designed a responsive and visually appealing UI suitable for both mobile and desktop screens.
- Utilized React components and state management to handle user responses and display personalized messages.
- Enabled real-time feedback for RSVP actions, enhancing user experience for event organizers and guests.

EDUCATION

Pre-University Course (Science Stream)
Alva's Pre-University College, Moodbidri   *Graduated: 2019*

Bachelor of Science in PMCs (Physics, Mathematics, Computer Science)
NMC Sullia, Mangalore University   *Graduated: 2023*

TECHNICAL SKILLS

Programming & Web Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), JavaScript, TypeScript, HTML, CSS, Tailwind CSS, Bootstrap.

Databases & Cloud: MongoDB, MySQL, PostgreSQL, AWS (EC2, S3).

Development & Tools: Git/GitHub, Figma, Postman, VS Code.

Soft Skills: Critical Thinking, Adaptability, Effective Communication.
