Divith KR

Bengaluru — MERN Stack Developer — Web Application Developer
divith2526@gmail.com | 9353473258 | [LinkedIn] | [GitHub]| [Portfolio]

PROFILE

MERN Stack Developer skilled in JavaScript, TypeScript, React, Node.js, Express, MongoDB, and PostgreSQL. Experienced in building responsive web apps, RESTful APIs, and clean UIs with Tailwind CSS and Bootstrap. Passionate about writing maintainable code and eager to apply my skills to real-world projects.

TECHNICAL SKILLS

Programming & Web Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), JavaScript, TypeScript, HTML, CSS, Tailwind CSS, Bootstrap.

Databases & Cloud: MongoDB, MySQL, PostgreSQL, AWS (EC2, S3).

Development & Tools: Git/GitHub, Figma, Postman, VS Code,Onrender.

Soft Skills: Critical Thinking, Adaptability, Effective Communication.

EXPERIENCE

Bootcamp
Brototype   *Bengaluru*
Engaged in a self-paced full-stack development program with weekly expert reviews, building static and dynamic websites—including an e-commerce platform—using HTML, CSS, JavaScript, React, Tailwind CSS, EJS, Node.js, express.js, postgre SQL and MongoDB, focusing on clean UI/UX and backend integration.

PROJECTS

Study Bangalore International   **Git**
Admission Booking Website — HTML, CSS, JavaScript
- Built a responsive static website to display admission details for colleges in Karnataka, with clean UI using HTML, CSS, and JavaScript.
- Implemented JavaScript-based form validations and optimized the site for better performance and user experience.

RevGear   **Git**
E-Commerce Platform for Riding Gear — HTML, Tailwind CSS, Express.js, MongoDB, EJS
- Built a full-stack e-commerce platform for premium riding gear using Express.js, MongoDB, EJS, and Tailwind CSS with a fully responsive UI.
- Implemented authentication, product management, and secure order handling, while designing database structure for scalability and efficiency.

Budget-Plan   **Git**
Budget Planning Application — React, HTML, CSS, JavaScript
- Created a responsive budget planning web app using React to calculate, track, and analyze income and expenses in real time.
- Implemented dynamic components and interactive analysis to provide users with clear financial insights and decision support.

Touch-evento   **Git**
Event Invitation Platform — React, HTML, CSS, JavaScript
- Developed a digital event invitation app with RSVP functionality, personalized messages, and responsive UI for all devices.
- Leveraged React state management to enable real-time feedback and enhance experience for both organizers and guests.
